PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of professional experience designing and shipping production-grade web applications using **Node.js, Express.js, Django, React.js, and MySQL/MariaDB/MongoDB**. Proven track record of building scalable REST APIs, implementing JWT/OAuth authentication, and improving backend performance. Passionate about writing clean, maintainable code and collaborating cross-functionally in fast-paced, agile environments.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL

Frameworks & Libraries: Node.js, Express.js, Django, React.js, Django REST Framework

Databases: MySQL, MongoDB, MariaDB (schema design, indexing, query optimization)

APIs & Auth: RESTful API design, JWT, OAuth 2.0, GET/POST/PUT/DELETE/PATCH operations

Tools & DevOps: Git, GitHub, Postman, VS Code, PyCharm, Cursor, GitHub Copilot, Copilot, GitGuardian

Concepts: CRUD operations, Role-Based Access, debugging, code review

EXPERIENCE

Freelance Full Stack Developer

January 2026 – Present

Self Employed

Remote

- Developed multiple freelance web applications using **React.js, Node.js, Express.js, MongoDB, Django, and MySQL** for real-world business requirements.
- Built scalable backend systems, authentication workflows, REST APIs, and responsive frontend interfaces for production-ready applications.
- Collaborated directly with clients to gather requirements, optimize workflows, and deliver maintainable software solutions.
- Implemented advanced functionalities including booking systems, invoice generation, waiting lists, verified user feedback, and user profile management.

Full Stack Developer

January 2025 – December 2025

Arham Corporation

Ahmedabad, Gujarat, India

- Developed and maintained responsive full stack web applications using **Django templates, Node.js, Express.js**, serving production users.
- Designed and optimized **MySQL/MariaDB** database schemas with proper indexing strategies, improving query performance for high-volume data operations.
- Built and integrated **RESTful APIs** with JWT and OAuth 2.0 authentication, ensuring secure, token-based access control across services.
- Implemented GET requests with request-body handling in Django, enhancing API flexibility and improving **backend response time and deployment stability** under senior guidance.
- Developed frontend features using Django templates and React.js, integrating backend APIs to deliver seamless user-facing interfaces.
- Collaborated with UI/UX and backend engineers in agile sprints; conducted code reviews, authored technical documentation, and maintained version control with **Git/GitHub**.
- Participated in testing and debugging cycles, contributing to measurable **performance improvements** and system stability across multiple releases.

Full Stack Developer Intern

October 2024 – December 2024

Arham Corporation

Ahmedabad, Gujarat, India

- Built responsive UI pages using **Django templates**, integrating full CRUD (GET, POST, PUT, DELETE) API operations end-to-end.
- Developed a complete **React.js** project focused on component-based UI architecture, implementing reusable components and state management.
- Assisted in backend task development using **Node.js**, including API creation and database integration with MariaDB/MySQL.
- Performed CRUD operations on relational databases and supported QA testing and debugging, contributing to stability improvements pre-deployment.
- Used **Git/GitHub** for version control, branching strategies, and collaborative development workflows.

PROJECTS

Coach Appointment System <i>Django</i>	April 2024 – April 2024
• Built a full-featured booking platform with advanced filters, calendar scheduling, and role-based authentication (admin, coach, client), enabling secure, multi-tenant access control.	
Retail ERP, OMS & B2C Management System <i>Node.js, Express.js, Django, MariaDB</i>	Oct 2024 – Dec 2025
• Developed scalable backend services using Node.js and Express.js and integrated frontend dashboards using Django for retail and business management workflows. • Implemented accounting functionalities including ledger posting, trading accounts, final accounts, balance sheets, GST book filing, and financial reporting systems. • Built OMS (Order Management System) dashboards displaying business analytics, reports, location-based data, transaction summaries, and operational insights. • Developed complete user management and company management modules with role-based access control and authentication workflows. • Designed optimized database schemas in MariaDB for handling large-scale business and transactional data operations.	
Ahmedabad Post API System <i>Node.js, Express.js, MySQL</i>	Oct 2025 – Oct 2025
• Designed postal service modules with search, validation, and data integrity features; built RESTful endpoints consumed by frontend clients.	
Market Yantra – AI Stock Insights API <i>Python, Django, REST APIs</i>	Jan 2025 – Feb 2025
• Developed backend APIs to surface AI-driven stock market insights; integrated data pipelines and exposed structured endpoints for frontend consumption. • Learned and implemented advanced API request handling in Django by processing GET requests with request bodies instead of traditional query parameters for flexible data handling workflows.	
Travela <i>Django</i>	April 2026 – April 2026
• Developed a travel booking platform with functionalities for tour package booking, invoice generation, waiting list management, and verified user feedback systems. • Implemented user profile management, authentication workflows, and scalable backend logic for handling customer booking operations.	
DataSync – CSV Data Pipeline <i>Python, MySQL</i>	Nov 2025 – Nov 2025
• Built a Python utility to parse, clean, validate, and bulk-insert CSV data into a relational database, reducing manual data entry and improving data reliability.	

ACHIEVEMENTS & AWARDS

University Champion in Judo – Competed and won at university level; demonstrates discipline, focus, and a competitive mindset.
National Player in Judo – Represented at national level competition, showcasing elite performance under pressure.
Self-Defense Workshop Leadership Award – Recognized for leading and conducting a self-defense training workshop.

EDUCATION

Bachelor of Computer Applications (BCA) <i>C.U. Shah Institution of Computer Applications, Gujarat University</i>	July 2021 – May 2024 <i>Ahmedabad, Gujarat</i>
---	---
